501 Ideas for Your Compliance and Ethics Program: *Lessons from 30 Years of Practice*

Anyone working in the compliance field knows that the best ideas for building an effective program come from other compliance and ethics professionals. Author Joe Murphy has spent years not only collecting such ideas, but also using them and networking with others who use them.

He shares 501 of them here—ideas big and small—to help others find new ways to improve their compliance and ethics programs. Topics covered in this collection include:

- identifying compliance & ethics risks
- establishing and enforcing a program
- conducting audits
- benchmarking against industry practices
- preparing for investigations
- evaluating effectiveness
- and much more!

All ideas in this book are practical and can be immediately acted upon. However, for readers who want more than a “bite-sized nugget” of information, Murphy has also provided print and Web references after most ideas to supply more background and detail.
